1. Prequalification is required for network capacity approval.

2. Local numbers/DID are ordered from each requested market (see local access list)

3. Hand off type, Internet, SIP G711, G729, H323 or PRI

4. Order is placed with 4-8 week time frame for deployment and testing

5. Pricing is flat rate per rate center, market, DID and access to network only; no usage based.

6. Carrier provides and manages all equipment connecting to local markets.
